C07K123:00  
AB - J07215889 A hypotensive agent or a hypotensive functional food  
contains as active component one or more of the following peptides

Continue: Y / N

? Y  
which are decomposition fragments of angiotensin II:  
Asp-Arg-Val-Tyr-Ile-His-Pro, Arg-Val-Tyr, Val-Tyr-Ile,  
Arg-Val, Val-Tyr, Tyr-Ile, Ile-His, His-Pro and Pro-Phe.  
- ADVANTAGE - The peptides show excellent ACE inhibiting activity.
